CENTELLA CLEANSING BALM

Thanks to ERBORIAN, removing makeup has now become **the ultimate ultra-sensorial and effective experience.** One that will quite simply change your beauty routine.

How do you make a daily, essential, repetitive and, let's be honest, sometimes boring part of your beauty routine enjoyable and effective? **With Erborian of course! Erborian's new Centella Cleansing Balm expertly combines pleasure of use with fantastic results.**

This solid makeup remover with its balm texture, transforms into an oil to gently and effectively remove makeup from the face and eyes.

Its secret ingredient? Centella Asiatica. Centella Asiatica is also known as "tiger grass" - because big cats roll in it when they're injured to speed up the healing process. This super ingredient is particularly renowned for its soothing properties.

A UNIQUE EXPERIENCE MEETS SENSORIALITY

CENTELLA CLEANSING BALM literally melts on contact with the skin. Gently massage onto dry skin in a circular motion, including the eye area, before emulsifying and rinsing thoroughly.

MILKY WAY

On contact with water, the balm transforms into a delicately perfumed milky lotion.
