ERBORIAN'S DOUBLE CLEANSING

# CEN- IN 2 STEPS TELLA

Centella Cleansing Oil and Cleansing Gel: here, you can find all the power and efficacy of a super ingredient. Centella Asiatica, at the heart of ERBORIAN's double cleansing.

ONE OIL, ONE GEL,  
TWO STEPS,  
ALL WITH THE SAME  
ONE PURPOSE:  
FOR A PERFECTLY  
CLEAN SKIN!

Centella Asiatica is to ERBORIAN what the pharmacopoeia is to Korea, i.e. absolutely essential. Centella is also nicknamed tiger grass because, according to the legend, big cats who were wounded would roll in their leaves to take advantage of its soothing properties. According to the Korean beliefs, this plant, or super ingredient, has amazing soothing properties.

Centella is therefore our Ingredient of choice, infused in the heart of the new ERBORIAN double cleansing.

## STEP 1 CENTELLA CLEANSING OIL

Remove even the most stubborn make-up from the skin, eliminate impurities and excess sebum, help to soothe and to moisturise the skin.

We carefully chose all of the ingredients for their amazing properties:

- ▶ Centella extract and Bisabolife with soothing properties.
- ▶ Sweet Almond Oil with nourishing properties.
- ▶ Sunflower oil with moisturising properties.

This ultra-fine cleansing oil removes make-up (including waterproof make-up), excess sebum and impurities, while helping to maintain the skin's natural moisture. Formulated with our super-ingredient Centella Asiatica and rich in nourishing plant-based oils, Centella Cleansing Oil leaves the skin feeling soothed, moisturised and comfortable. Upon contact with water, its light texture transforms into a milky lotion that enables quick make-up removal without leaving greasy residues.

Apply directly to dry skin and gently massage the face and eye with circular movements. Add a little water to lather, then rinse thoroughly.

## STEP 2 CENTELLA CLEANSING GEL

Thoroughly cleanses, removes impurities, helps purifies, soothes and moisturises the skin.

Centella Cleansing Gel helps purifies the skin and removes impurities, leaving you with a pleasant sensation. Its enveloping texture ensures a gentle cleansing action, while helping to maintain the skin's natural level of moisture. The skin immediately looks clearer and more luminous.

Apply to a wet face, including the eye, and massage gently with circular motions. Rinse thoroughly.
