VANILLE SOLEIL

The new Fragrant Wellbeing Water
by Roger&Gallet

Incredibly iconic and deeply rooted in our collective imagination, vanilla is a scent that instantly evokes joy and timeless memories.

From milkshakes in the diners of our favorite cult films to the Danette pudding that defined an entire generation, this familiar note has always been a cornerstone of pop culture.

Yet, its widespread use has occasionally given it the reputation of being too commonplace and even lacking in elegance.

Roger&Gallet has consistently demonstrated bold creativity in reinventing timeless classics. As early as the 19th century, the House embraced the Violet flower — a true star of its time, celebrated both in perfumery and culinary creations with the mythical Violet syrups and candies.

By introducing Vera Violetta, the House offered an authentic interpretation of this iconic flower. The soft, rounded notes of the fragrance became an instant success, with 31 variations launched by 1945.

Today, Roger&Gallet continues this legacy by reinventing vanilla — not just as a familiar scent but as a true signature that lingers on the skin.

A Mediterranean Infused Vanilla

Roger&Gallet presents Vanille Soleil, a luminous and captivating fragrance — a sun-soaked melody that invites you to dance. Enriched with sun-kissed notes and Mediterranean accords, this vanilla unveils a surprising new dimension: joyful, free-spirited, and uninhibited

Traditionally known for its rich, sweet scent, Roger&Gallet adds an unexpected twist to this classic, infusing it with a refreshing touch of sea breeze, using iodized and floral notes. This gives the vanilla an airy facet, leaving a trail of liberating and contagious energy in its wake.

My inspiration was an urban vanilla that is not as sweet as the one we know, layered with a salty marine note and white flowers. A vanilla you'd want to wear all year long.

Karine Dubreuil

Perfumer

A Radiant Three-Part Composition

BRIGHT, SALTY TOP NOTES

A lively burst of citrus — lemon and bergamot — enhanced by pink pepper for a joyful opening, with salty notes evoking a fresh sea breeze.

WHITE FLORAL HEART NOTES

ylang ylang and jasmine, enveloping you in a sun-kissed caress.

ENVELOPING DRY DOWN NOTES

Madagascar vanilla, softened by tonka bean, creamy musks, and amber notes.

Vanille Soleil by Roger&Gallet is adorned in a vibrant shade of Mediterranean blue and illuminated by touches of yellow, a nod to the sun's rays engraved on the bottle. In line with the Fragrant Wellbeing Water collection, the formula includes vanilla extract with relaxing properties for the body and mind. It contains 93% ingredients of natural origin and is made in France.

This Roger&Gallet creation is both modern and effortlessly chic — a vanilla that dances and invites you to fully savor the moment.
